

Free water saving devices

See how much water you use and what you can save with the **GetWaterFit calculator**. Visit seswater.co.uk/getwaterfit or **scan the QR code** to the left.

Once completed you can order a range of free devices depending on suitability of your home. You may also qualify for a free leak repair.

Shower regulator

Regulates flow to 8 litres per minute.

**not suitable for electric showers.*

Buffaloo bag

Placed in cistern to reduce amount of water per flush, saving 12 litres per day.

Shower head

Regulates flow to 7 litres per minute.

**not suitable for electric showers.*

Leaky loo strip

Placed in bowl of toilet to identify leaks not visible to the eye. A leaky loo can waste up to 400 litres per day.

Tap aerators with fitting tool

Reduces flow by adding air to water down to 5 litres per minute.

Kitchen tap aerator

Reduces flow to 8 litres per minute.

Swell gel

Mix with soil. They hold water therefore reducing water use on plants and save 0.5 litres per day.

Shower timer

timer, saving 5 litres per day.

Silicone plug

For missing plugs

Supporting our customers

Remember, saving water can save you money. If you're having difficulty paying your bill, we're here for you. We can't cancel the bill, but we may be able to suggest more manageable payment options.

Priority services – Tailored support for customers

who may have long or short term health, access or communication needs.

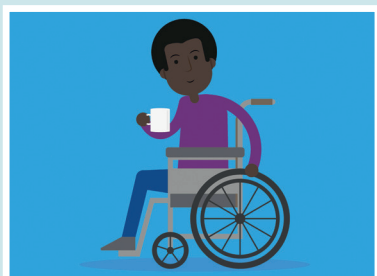

Find out more and **register online** – or register someone else if they're not online.

Water support – 50% bill reduction for low income households.

Breathing Space – Pause payments if you need

help getting back on your feet.

WaterSure – A capped tariff for metered customers

so you pay whichever bill is lower – your actual usage, or an average household bill.

Water direct – Arrange for your payments to be

deducted directly from your benefits so you never have to remember to pay a bill.

We want to support you as best we can
